PROFESSIONAL SUMMARY

Technical professional experienced in AI data quality and Full Stack Web Development (Python, SQL, AWS, Linux, React.js, Django, Node.js). Supported AI data pipelines, video datasets, and quality control. Experienced in developing scalable web apps, REST APIs, payment gateways, and RBAC implementations.

TECHNICAL SKILLS

- **Languages:** Python, C, JavaScript, HTML5, CSS3, SQL
- **Frameworks:** Django, Express.js, React.js, Bootstrap, Tailwind CSS, Node.js
- **Databases & Tools:** MySQL, MongoDB, AWS, Linux/Ubuntu, Pandas, Git, Postman, Excel
- **Competencies:** AI Data Pipelines, Data Engineering, Quality Control, REST APIs, Payment Gateways, RBAC

PROFESSIONAL EXPERIENCE

DreamVu

Data Engineer

Jun 2026 – Present

Full-time | Hyderabad

- Supported AI data pipeline operations involving cloud video datasets, annotation validation, QC, and delivery.
- Managed cloud dataset storage/retrieval via AWS S3 and performed video processing in Linux environments.
- Leveraged Python and SQL for data handling, validation, structured querying, and Excel for error reporting.

XL Management Services & Consultants

Web Developer

Mar 2026 – Jun 2026

Hyderabad

- Designed and developed responsive client websites with secure payment gateway integrations and backend APIs.
- Implemented secure authentication and Role-Based Access Control (RBAC).

Social Tek

Full Stack Intern

Jun 2025 – Dec 2025

Hyderabad

- Collaborated with the core development team to design, build, and configure robust application modules using Python and Django.
- Participated in code reviews, optimized backend query performance, and ensured adherence to software quality standards.
- Integrated RESTful endpoints, tested features across multiple environments, and resolved bugs to streamline user flows.

Amazon

Associate

Nov 2023 – May 2024

Hyderabad

- Analyzed and verified large volumes of product location data using HMI tools with high attention to detail.
- Maintained strict quality standards to meet cross-functional daily targets.

PROJECTS

Enlite - Intelligent Energy Analytics Platform | React.js, Tailwind CSS, Django

- Developed full-stack energy analytics platform for monitoring and predicting energy consumption using ML models and REST APIs.
- Implemented RESTful APIs to handle data for personalized optimization recommendations.
- Integrated secure authentication flows and backend database management for seamless report generation.

Vibe - Restaurant Management System | React.js, Node.js, Express, MongoDB, JWT

- Built table reservation system featuring RBAC, JWT authentication, and automated availability rules.
- Streamlined administrative workflows, real-time table status updates, and order tracking for high-volume dining operations.

EDUCATION

Jawaharlal Nehru Technological University

B.Tech in Electronics and Communications Engineering

2019 – 2023

Hyderabad
